Flexible Spending Account

Why should I choose a flexible spending account (FSA)?

A flexible spending account (FSA) lets you save money by setting aside pre-tax dollars to pay for eligible medical, dental, vision and dependent care expenses incurred by you, your spouse or your eligible dependents.

Take home more money

Putting money into an FSA decreases your taxable income, which means you'll take home more money.

Plan better for health expenses

Spend your funds on the eligible health expenses you incur throughout the year. The IRS has a "use it or lose it" rule for FSAs, which means funds must be spent by the end of the plan year unless your employer offers a grace period or carryover.

Flexibility

You can use your funds for eligible expenses occurred by you, your spouse, or your eligible dependents. Thousands of products and services are FSA eligible. (Eligible expenses are determined by the IRS.)

Funds on Day 1

All of your FSA dollars are available on the very first day of the plan year. For example, if you choose to contribute \$1,200 to your FSA, your contributions will be deducted evenly across all of your paychecks for the year, but you have access to all \$1,200 on Day 1.

Can I enroll?

Yes, as long as you or your spouse aren't actively enrolled and contributing to a Health Savings Account (HSA).

Contribution limits + IRS regulations

The IRS sets the maximum dollar amount you can elect to contribute to a medical FSA. The annual contribution limit for 2025 is \$3300

Tip: Review how much you spend on eligible healthcare expenses every year to determine how much to elect.

Changing your election

In order to make changes to your election after open enrollment, you need to experience a qualifying life event. These events include:

- Change in marital status or in the number of dependents
- Increase due to birth, adoption, or marriage
- Decrease due to death, divorce, or loss of eligibility
- Gain or loss of eligibility due to a change in participant, spouse, or dependent employment status

If you experience a qualifying life event, contact your employer to make changes to your election.

Your Saving Can Add Up Fast

Over-the-Counter Expenses

When you participate in a Flexible Spending Account (FSA), you're able to contribute pre-tax funds for use on hundreds of eligible expenses. Recently, you gained even more flexibility in your ability to save when the CARES Act was signed into law.

This new legislation expanded the list of expenses that are considered eligible by including popular over-the-counter products, which you can now purchase with your HSA or FSA without a prescription. This change went into effect on January 1, 2020 and allows over 20,000 new expenses as eligible moving forward. That's great news for consumers, since the average American shops for over-the-counter medications 26 times each year.

Here are five of the most common expenses that are now eligible for your HSA and FSA funds without a prescription.

Pain relief medications

Headaches. Muscle soreness. Sprains. There are so many reasons that you may need pain relievers. There are two common types of over-the-counter pain medications: acetaminophen and nonsteroidal anti-inflammatory drugs (NSAIDs), both of which are now among the eligible expenses available from your HSA and FSA.

Cold and flu products

Winter may be behind us, but cold and flu season never really goes away. As much as 20 percent of the U.S. population gets the flu, on average each season. Fortunately, the over-the-counter medicines you so often turn to when coping with a severe cough or congestion are now eligible expenses.

Allergy products

Thirty percent of American adults and 40 percent of children suffer from allergies. And the cost of allergies to the healthcare system is estimated at \$18 billion. Those who do have allergies can now find relief with their HSA and FSA funds in the form of over-the-counter antihistamines and decongestants.

Heartburn medications

Heartburn is among the more common afflictions in this country. That's why Americans spend billions of dollars each year on medicines that treat heartburn. The CARES Act means that these over-the-counter drugs are HSA and FSA eligible without a prescription.

Menstrual products

The CARES Act also included menstrual care products as eligible expenses for HSAs and FSAs. Eligible products include tampons, pads, and menstrual sponges.

Dependent Care FSA

Why should I choose a dependent care FSA?

A dependent care FSA allows you to put aside a portion of your paycheck before taxes for eligible dependent care expenses each year.

Save money

The dependent care FSA lets you pay for eligible dependent care expenses while you reap the benefits of additional tax savings. You're spending the money either way. This way, eligible childcare and other dependent care costs are a little less.

Save strategically

Submit all of your dependent care expenses at the end of the plan year for one lump sum reimbursement to give yourself a hard-earned "bonus."

Fast Fact

For recurring costs, submit our Recurring Dependent Care Form.

It makes claim filing simple because you only need to submit one form once in order to get reimbursed each pay period.

What does it cover?

The list includes, but is not limited to, eligible:

- Childcare center, babysitter, nanny (birth through age 12)
- Summer day camp
- Before- or after-school care
- Disabled dependent and/or spouse care
- Elder care

Can I enroll?

You are eligible if you and/or your spouse (if applicable) are gainfully employed, looking for work, or are attending school on a full-time basis.

Dependent Care FSA

Contribution Limits & IRS Regulations

The IRS sets the maximum dollar amount you can elect and contribute to a dependent care eligible spending account (dependent care FSA). The annual contribution limit for is:

- **Per household: \$5000.00**
- **Per person (if married and filing separately): \$2500.00**

Although most people incur more than the limit per year, we recommend reviewing how much you spend on eligible dependent care expenses every year to determine your election.

Funds available as you contribute

Funds will be available to you as they're deducted from your paycheck and contributed to the plan. This means when payroll is processed and your paycheck is available to you, your dependent care FSA contributions will be applied to your account and available for reimbursement.

Use-or-lose

Don't forget to spend your Dependent Care dollars. If you have not used all of your funds before the end of the plan year, you will forfeit any money left in your account. (Check with your employer to confirm how many days you have to submit claims for reimbursement after the plan year ends.)

Fast Fact

A great way to set it and forget it is to use our Recurring Dependent Care Form that allows you to submit one claim for the entire year and you will be reimbursed after each payroll.

Changing your dependent care FSA election

In order to make changes to your election after open enrollment, you need to experience a qualifying life event. (If you experience a qualifying life event, contact your employer to make changes to your election.) These events include:

- Change in marital status
- Change in the number of dependents
- Increase due to birth, adoption or marriage
- Decrease due to death, divorce or loss of eligibility
- Gain or loss of eligibility due to a change in participant, spouse or dependent employment status
- Change in daycare providers
- Child turning age 13
